

The people that supports me

I feel thankful for my friends
They always make me laugh
They are always there for me
They taught me how to not feel alone
I want to say thank you
Thank you for being there.
I feel thankful for my family.
They care for me
My parents support me
My grandma feeds me
I want to say i love you
I love you for being here.
Even to my stupid brother.
I am thankful for the ones who care
And will continue to do so.
