# What Are We Grateful For?

Several students at P.S.8 were invited to reflect on the question, "What are you thankful for?" and express their gratitude creatively.

One group of 4th and 5th bilingual students put to work their knowledge of using digital tools like Google Slides to share their thoughts. They then crafted visual representations of what they were grateful for by combining text in both English and Spanish with meaningful emojis. This bilingual activity encouraged students to explore their emotions, celebrate diversity, and share what matters most to them in a fun and engaging way.

A second group of 5th grade students tapped into their poetic side and created poems reflective of the parts of their lives they are grateful for. Check out the continuing to see their work and enjoy!

A Bed that brings me comfort after a long day
