My Thankful Essay

"Piglet noticed that even though he had a very small heart, it could hold a rather large amount of gratitude". This quote is from Winnie the Pooh. It means that even if you are small, you can still be thankful for everything in the world.

The word thankful means being grateful for something or someone. For example, when you receive a gift from someone you show that you are happy to receive the gift and say "thank you". Some of the things I am thankful for are my family, friends, and afterschool activities.

I am thankful for my family. I am thankful for my family because they are always there for me. They care for me, make me laugh, make sure I get a good education, and feed me. My family makes me feel good about myself and they make me feel loved. My family is important to me because I love them so much. I am so thankful they are in my life.

I am thankful for my friends. They are special to me. They are special to me because they care for me, help me when I'm hurt, tell me funny secrets, and watch funny movies together. One time my friend made me happy was when Adriana stood up for me. After that we played together and that made me happy. I love the friends in my life!

I am thankful for my education and sports. I am thankful for my education because I love learning new things, all of my classmates are nice to me, and over the years I've had the best teachers, principal, secretary, and security guard. I am also thankful for sports. I'm thankful for sports, especially soccer. I love playing soccer with my friends because it keeps me active and happy.

All in all, I am really thankful for my family, friends, teachers, school staff, sports and education. These are all the things I'm thankful for.
