

Be thankful for the roof over your head,
also for the food you have. The beautiful
grass you can touch. Also the love you
have. When the days are down, make them
bright, like a butterfly, shining at night.
also, be thankful for the teacher you have,
without them we can't understand the
subjects we have. Be kind and love, then
your heart will grow in happiness but
you still have love of family and friends.
