

I Am Thankful For My Family **By Arthur Zhou**

Have you ever wondered about your family? I am thankful for my family because they are always there for me when I don't feel great, they teach me how life could be sometimes, and they play board games with me. I believe my family is the best gift I could possibly have.

I am thankful for my family because they are always there for me when I don't feel great. First, they rub a certain body part that hurts to make me feel better. Next, they make me laugh when I am hurt or upset to cheer me up. Lastly, they also make me food when I am hungry.

I am thankful for my family because they teach me how life could be sometimes. First, they tell me to be kind even if there mean to you. Next, they also tell me to not hit someone first in an argument, do it after they hit you first. Lastly, they teach me to be grateful for what you get.

I am thankful for my family because they play board games with me. One they make me happy playing Chess, Two they actually try which makes me happy so we can win and lose. Last, they give rewards to the winner sometimes and it is fun.

To wrap it up, I am thankful for my family because they are always there for me when I don't feel great, they teach me how life could be sometimes, and play board games with me. I love my family the most.
