

Brian

This year I am thankful for my family and my friends Jason and Shai because they are my friends because they are with me for the whole day and I get to call them and they keep me company i'm thankful to have them because if I didn't have friends at the law school, I wouldn't be able to talk to anybody or call I will be sad for the rest of my life and I can never have friends but I have friends so I don't think about that.
