I am so so so grateful for my aunt's dog, Penny. She's so energetic, loving, and totally loves people. Even if she senses that you don't like dogs she will still love you and will try to jump on you.

Penny loves, and I mean LOVES to run around anywhere. Like we could be anywhere with any type of space and she'll run around ~ even if it's a very tiny space (and Do not get me started on grass and snow). Penny will make sure you feel welcome 100% of the time. Even if she doesn't know you, you will be forced to pet her because if you don't she'll howl at you! until you pet her, like that's just Penny. Sooner or later you will fall in love with her.

Penny is definitely one of my favorite dogs that's why I love her so much. I am so grateful for the love, energy and smiles she brings to our family.
