

Dear Family

Chapter 1 My Mom

I am grateful for my mom. She spoils me and sometimes hates me but I love her. She always has a funny kid personality and loves it when I hang out with my sisters and we don't beat each other up. She also loves me to death and will do anything to make me and my sibling happy or feel good like when I broke my finger dad said it was probably just James but mom got me an xray anyways and it was actually fractured. She also loves a little 5 year old personality when it comes out sometimes she laughs and she always makes my day.

Chapter 2 My Dad

I am really grateful for my dad. He cares about me, lets me pull all-nighters on weekends and loves watching shows with me but he gets mad easily sometimes and always says sorry and he is always trying to toughen me up and loves trying to help me when I get bullied. He also has a goofy personality that will cheer me up every second. We also have a never ending tag game and we forget sometimes and remember randomly and we tag each other. We also have a bunch of tickle fights but he wishes me and my sibling will be nice to each other.

Chapter 4 my sisters

Me and my older sister Liza love each other. We do everything together but she moved to Rhode island and I see her once in a while. My 2 younger sisters hate me but I try my best to cheer them up. We love each other once in a while and we do all sorts of adventures together and I love them to death. Without them I would cry.

Chapter 5 Luna my dog

Luna is young but we all love her. She is still like a baby and has a kangaroo hop and will flop like a fish. She taught me that love life and be careful with your time.
