

What are you thankful for Poem

*I am thankful for the birds and the bees
im thankful for the fruit on the trees*

*I am thankful for my house my street
where family and friends come and meet
Filled with laughter, joy, and tears
And sometimes even fears*

*But I do miss those who are gone
I hear them in the saddest song
But i know they are here watching over me
Somewhere up high or in the sea*

*Im thankful for the food on my plate
Im thankful for my fate*

*Im thankful for the life i have
Cause I know one day they will be gone forever
However they are here now so let me say yay
Cherish time with your friends for someday their time may end
Im thankful for you im thank ful for you
I'm thankful for me*
