## What am I thankful for?

Isabella's essay

"What am I thankful for?" I am thankful for my family, my education, and my friends. Let's see why. I love all of these things but let me tell you why one by one.

I am thankful for my family because they do so much for me. My Mom works all day almost everyday to buy me and my brother Christmas and birthday presents and all the other stuff. My Dad works overnight a lot to also buy me and my brother things. My Brother walks me home sometimes from the bus and I love all of them.

I am thankful for my education because I learn so much. I love all my teachers and what they teach me. I love math, ela, science, stem, art, asl, music and gym. Math is sometimes hard, but I still like it. The same for ela and science. My favorite special is art or stem. Gym and music are not very hard. In the end I am thankful for all of them.

I am thankful for my friends because they are kind, caring, and funny. They are kind because they give me snacks and they also give me gifts for my birthday and sometimes even Christmas. They are caring when they give me bandaids and wish me to get better when I'm sick. They are funny because they can make me laugh and make a joke out of almost anything.

*In the end I am thankful for everything. I love all of these things and people and I am very lucky to have all these people in my life. Once again I'm very thankful for everyone and everything.*
