

There are many things I am thankful for, but one thing people usually aren't thankful for is their country. But what I am writing about is that I'm thankful for my country. One reason I am thankful for my country is clean drinking water. A lot of countries don't have clean drinking water so I am grateful that I don't have to worry about getting sick from my water. Another reason I am thankful for my country is free speech. Some countries don't have free speech, I am glad I can speak freely without getting into legal trouble. Also the United States always has houses for sale. What I mean by that is, if you drive in the suburbs you have a good chance of finding a house for sale.
