

Joiah

This year, I am thankful for being with my family because I love my family,. They take care of me and they make sure I get what I need. I am also thankful for all my friends because they make school fun. Also, my new school because I feel more comfortable. They take bullying more seriously than my old school. I am thankful for my cousins because they comfort me and they make me happy. Also, the earth, because without the earth, I would not be able to experience the fun times.
