

Why am grateful;

I am grateful for being able to see my parents every single day. The reason that am grateful to see my parents is the times that we all go out and have fun and enjoy life. The best memory that i had with my parents and my brother was wen we went to the park when I was a 4 years old and my dad, mom, and my brother \Played soccer with me and had [fun. My](#) life wouldn't be happy if it wasn't for them and my family. Every night my mom and dad tells me to go to be and say That they love me and i said it back. I am grateful because every time my Family always comes to my house and celebrate and I enjoy for my birthday. I always tell my family to not get me nothing for my birthday and they get me stuff and i well always be grateful. The reason I love my parents is because my Mom and my Dad always motivates me about school like, My mom be telling me how Im doing good in school and she is proud of me, my dad to he always says that his gonna give me a gift for being a great student and helping my mom in the house and that I stop talking back.
