What I Am thankful For

One thing that I am thankful for is my parents. They are always caring for me, working so hard so that I can play sports and go on vacation. My dad works so on school days so that he can be off during the weekends so he can go to my games. My mom sacrifices her days off to take me to practice. Another thing that I'm thankful for is my sister. Her name is Mila and she is 6 years old. She plays soccer and track. I am thankful to have her because she is always so nice to me. She always wants to cheer me up when I'm sad and upset. I know she loves me so much. Another person I'm thankful for is my grandpa. because he always wants to come watch me play. Always trying to help me learn more and do my best. Another thing that I am thankful for are my friends because they are always making sure that I am ok. I am also thankful to my friends because they share their snacks. They offer me something so that I can eat when I forget my lunch. Another thing I am thankful for is when we play outside and I'm just sitting down and doing nothing, they ask me to join them in their game. And they also help me out with homework. Like when I don't understand a question they help me by explaining the question to me.
