

Guess what it is, Thanksgiving!

Thanksgiving is about spending time with the people you love most and to be thankful for what you have. I am thankful for my family, friends, education, and sports. I am going to tell you all about my Thanksgiving.

I am thankful for my family because they have been there for my high and lows. They also work really hard so I can have food and water. My mom helps me do homework. My dad make my laugh when I am sad. My family makes me feel safe. My family is important because help me do things when I need it.

My friends are special because they are there when I need it. We play games together and we talk about things. One time at school I tripped on a rock and fell and I got hurt. Then after that they made me laugh. They support me in everything. I am very thankful for my friends because they are so nice and kind to me.

My education and sports are special to me because they help me learn about things like math, reading, and science. Education is important because you will need it later in life. For example, my education help me in test. Sports are important because you need to be athletic. For example you need athletic so you do not brake any bones.

I hope you have the best Thanksgiving
