

There are many things I'm thankful for. One of the things I am thankful for is my home. I'm thankful that I have a roof over my head when I sleep or if it rains. Another thing I'm very thankful for is my cats. I love my cats dearly and they always brighten my day. Lastly though there are so many more things I could list is life. I'm glad I can experience living on earth and learning new experiences even if some of those experiences are not good.
