

Thankful for

I am thankful for many things. Some of the things I am thankful for is my family, friends, shelter, food and water. I am thankful for my family because they love me and I love them so much. I am thankful for my friends because they care about me and I enjoy that. I am thankful for shelter so I am safe and I can have everything I need. I am thankful for food because I get healthy from most foods like fruit, veggies and food that have nutrients. I am also thankful for water so when we are thirsty we can drink water. This is what I am thankful for and why.
