Essay: I am grateful for my Health

Hi, I will be telling you what I am grateful for. Something I am grateful for is my health. One reason I am grateful for my health is that if I am not healthy, I would have to miss school.

Another reason why I am grateful for my health is that being sick means that I would have to take medicine.

The last reason that I am grateful for my health is that if I am not healthy, my parents would have to take off work.

Health is important to me. I hope you enjoyed it.
