

This year, during the Thanksgiving season and the holiday, I am thankful for my family and friends. I am grateful for my family because if they didn't do all the things that they do for me, I would have nothing, and I couldn't be where I am now. If I could thank them for one major thing this year, I would thank them for my education and all the help they have given me to get to where I am now. One major thing that I am thankful for is my brother, because he always drives me around when I need him to. Another reason why I am grateful for my brother is that when I need help working on something, he will always help me with what he can. I am thankful for my dad because he taught me how to work with my hands and how to fix things, even when I don't have the things I need to fix them. I am thankful for my mom because when I need help with my homework work she usually has the answer.
