

This year, I'm thankful for my dad. One reason I'm thankful for my dad is that he helps me with my homework. I'm thankful for my dad because he helps me study for tests. I'm also thankful for my dad because he takes me horseback riding and to volleyball. My dad also helps me during hard times and always knows how to make me feel better. He inspires me to do things that I might not think I can do. I'm also thankful for my dad because he was fighting in court for me to switch schools. The other school I was in before had a lot of very mean girls. The school was not doing anything about it. Also, I was not learning that much. I'm so thankful that I'm in this school, and now, I'm so thankful for my dad for doing that. I'm thankful that my dad got me into this school because the kids are so much kinder and I'm learning so much more than I did in my old school.
