HAVE YOU EVER FELT HOT ON A HOT SUMMER DAY? HAVE YOU EVER DRIVEN IN ANY CAR? YOU COULD'VE HELP IN THAT PREVENTING THAT POLLUTION. SOCIETY POLLUTION CAN CAUSE MANY HORRIBLE THINGS, INCLUDING, BUT NOT LIMITED TO, HOTTER, WEATHER MORE AND MORE PLANTS AND ANIMALS PASSING AWAY. THESE ARE PROBLEMS THAT NEED TO BE SOLVED. IN THIS ESSAY, I'LL BE TALKING ABOUT DIFFERENT WAYS TO HELP AND WHAT THE PROBLEMS ARE SO YOU ARE AWARE.

FIRST OF ALL, WARM WEATHER ISN'T SOMETHING YOU SHOULD JUST BE LIKE, "OH YEAH I DON'T CARE ABOUT." BUT IT'S AFFECTING THE ANIMALS TOO, LIKE POLAR BEARS THAT LIVE ON ICE. THINK, NEXT TIME YOU'RE DRIVING IF YOU REALLY NEED TO GO TO A PLACE, IT'S A LOT HEALTHIER TOO IF YOU TAKE A BIKE. NEXT, I'M GOING TO SAY THAT YOU HAVE TO DRIVE. DRIVING IS A NECESSARY THING, SO IF YOU DO HAVE TO DRIVE, MAYBE GET A CAR THAT HAS HALF GAS AND HAVE ELECTRIC AND I UNDERSTAND THAT NOT EVERYONE COULD BUY A NEW CAR BUT WHEN YOUR OLD CAR GETS A LITTLE BIT OLD AND STOPS WORKING, TRY TO LOOK AT THOSE ELECTRIC-GAS CARS. POLLUTION IS VERY BAD. IT MAKES IT SO MUCH HOTTER. I UNDERSTAND WHY PEOPLE WOULD WANT A GAS VEHICLE BECAUSE GAS VEHICLES ARE VERY CONVENIENT AND A LITTLE BIT CHEAPER, BUT IT'S NOT GOOD FOR THE ENVIRONMENT. THINK OF THAT NEXT TIME YOU THINK OF BUYING A CAR. I UNDERSTAND THAT IT COST A LOT OF MONEY TO GET A NEW CAR, BUT THINK OF ALL THOSE LITTLE POLAR POLAR BEARS THAT YOU COULD BE SAVING. I KNOW THAT I KEEP ON SAYING THAT IT COST MORE BUT IT IS NOT THAT MORE. JUST OVERALL THINK BEFORE BUYING A CAR.

THAT IS NOT THE ONLY WAY TO CAUSE POLLUTION. THE OTHER WAY IS BY LITTERING. LITTERING IS WHEN PEOPLE LEAVE TRASH OR NON-DECOMPOSABLE THINGS IN THE ENVIRONMENT. THIS IS A REAL PROBLEM BECAUSE THERE'S A FULL ISLAND IN THE PACIFIC OCEAN FULL OF PLASTIC FROM PEOPLE LITTERING AND IT GOING INTO THE OCEAN. SEA TURTLES AND OTHER SEA ANIMALS CAN GET STUCK IN THESE AND PASS AWAY. SOME CHANGES WERE MADE TO HELP WITH THIS PROBLEM. FIRST, IN WALMART THEY SWITCHED TO PAPER BAGS AND REUSABLE PLASTIC ONES. THIS IS VERY GOOD. ANIMALS ARE BEING HURT AND IT'S OUR FAULT, SO STEP UP AND MAKE A CHANGE AND DON'T USE PLASTIC. PLASTIC TAKES 1000+ YEARS TO DISINTEGRATE INTO THE GRASS SO I BET IN THOSE THOUSAND YEARS SOME ANIMALS GONNA EAT IT, SO DON'T DO IT. I KNOW IT'S HARD NOT TO USE PLASTIC BECAUSE THERE'S PLASTIC IN SO MANY GOOD THINGS BUT THINK OF THOSE LITTLE TURTLES WHO WANT YOUR HELP TANGLED IN PLASTIC JUST ASKING FOR HELP THAT COULD BE CAUSED BY YOU. IT COULD BE CAUSED BY ANY OF US, SO KEEP TRYING TO KEEP PLASTIC OUT OF OUR OCEANS.

TO SOLVE THIS PROBLEM, TRY RECYCLING. RECYCLING IS VERY IMPORTANT. IT CAN LITERALLY CHANGE A WATER BOTTLE INTO A CONTAINER FOR ANOTHER USER TO USE. IT'S JUST IS SOO EASY. FIRST STEP IS TO GET A RECYCLING CAN. THEN PUT ALL PLASTIC OR PAPER THINGS IN THERE AND YOU'RE DONE. ITS THAT EASY. SO WHY ARE YOU NOT DOING THAT? THERE IS NOT EXCUSE FOR NOT RECYCLING, JUST THINK.

OVERALL, TRY YOUR BEST TO KEEP OUR EARTH, HEALTHY, STOP POLLUTING, AND GAS POLLUTION IS A REAL PROBLEM. NOW YOU UNDERSTAND ALL THAT YOU NEED TO KNOW. NEXT TIME YOU'RE DRIVING, THINK ABOUT HOW MUCH POLLUTION YOU'RE CAUSING AND IF YOU REALLY NEED TO GO WHERE YOU'RE GOING. I UNDERSTAND IT'S MORE MONEY AND IT IS HARD BUT MAKE THE SWITCH.
