

*Our power,
our planet*

By Milania DiBenedetto

*The Earth is our home
There are tons of places to roam
but our planet needs care
so don't make waste of our power in the air.*

*Earth day comes and everyone cleans,
And just as spring brings all its greens
We realize that the earth needs care to bring what we need,
So on earth day, it matters for 1 good deed.*

*When we waste, the Earth calls our name,
We're now the ones to blame.*

*The Earth has a power like no other,
So be sure to treat it like a baby brother*
